

3D ARCHITECTURAL VISUALIZATION PORTFOLIO

VISUALISED BY:

PURVASHA SUKHADIYA

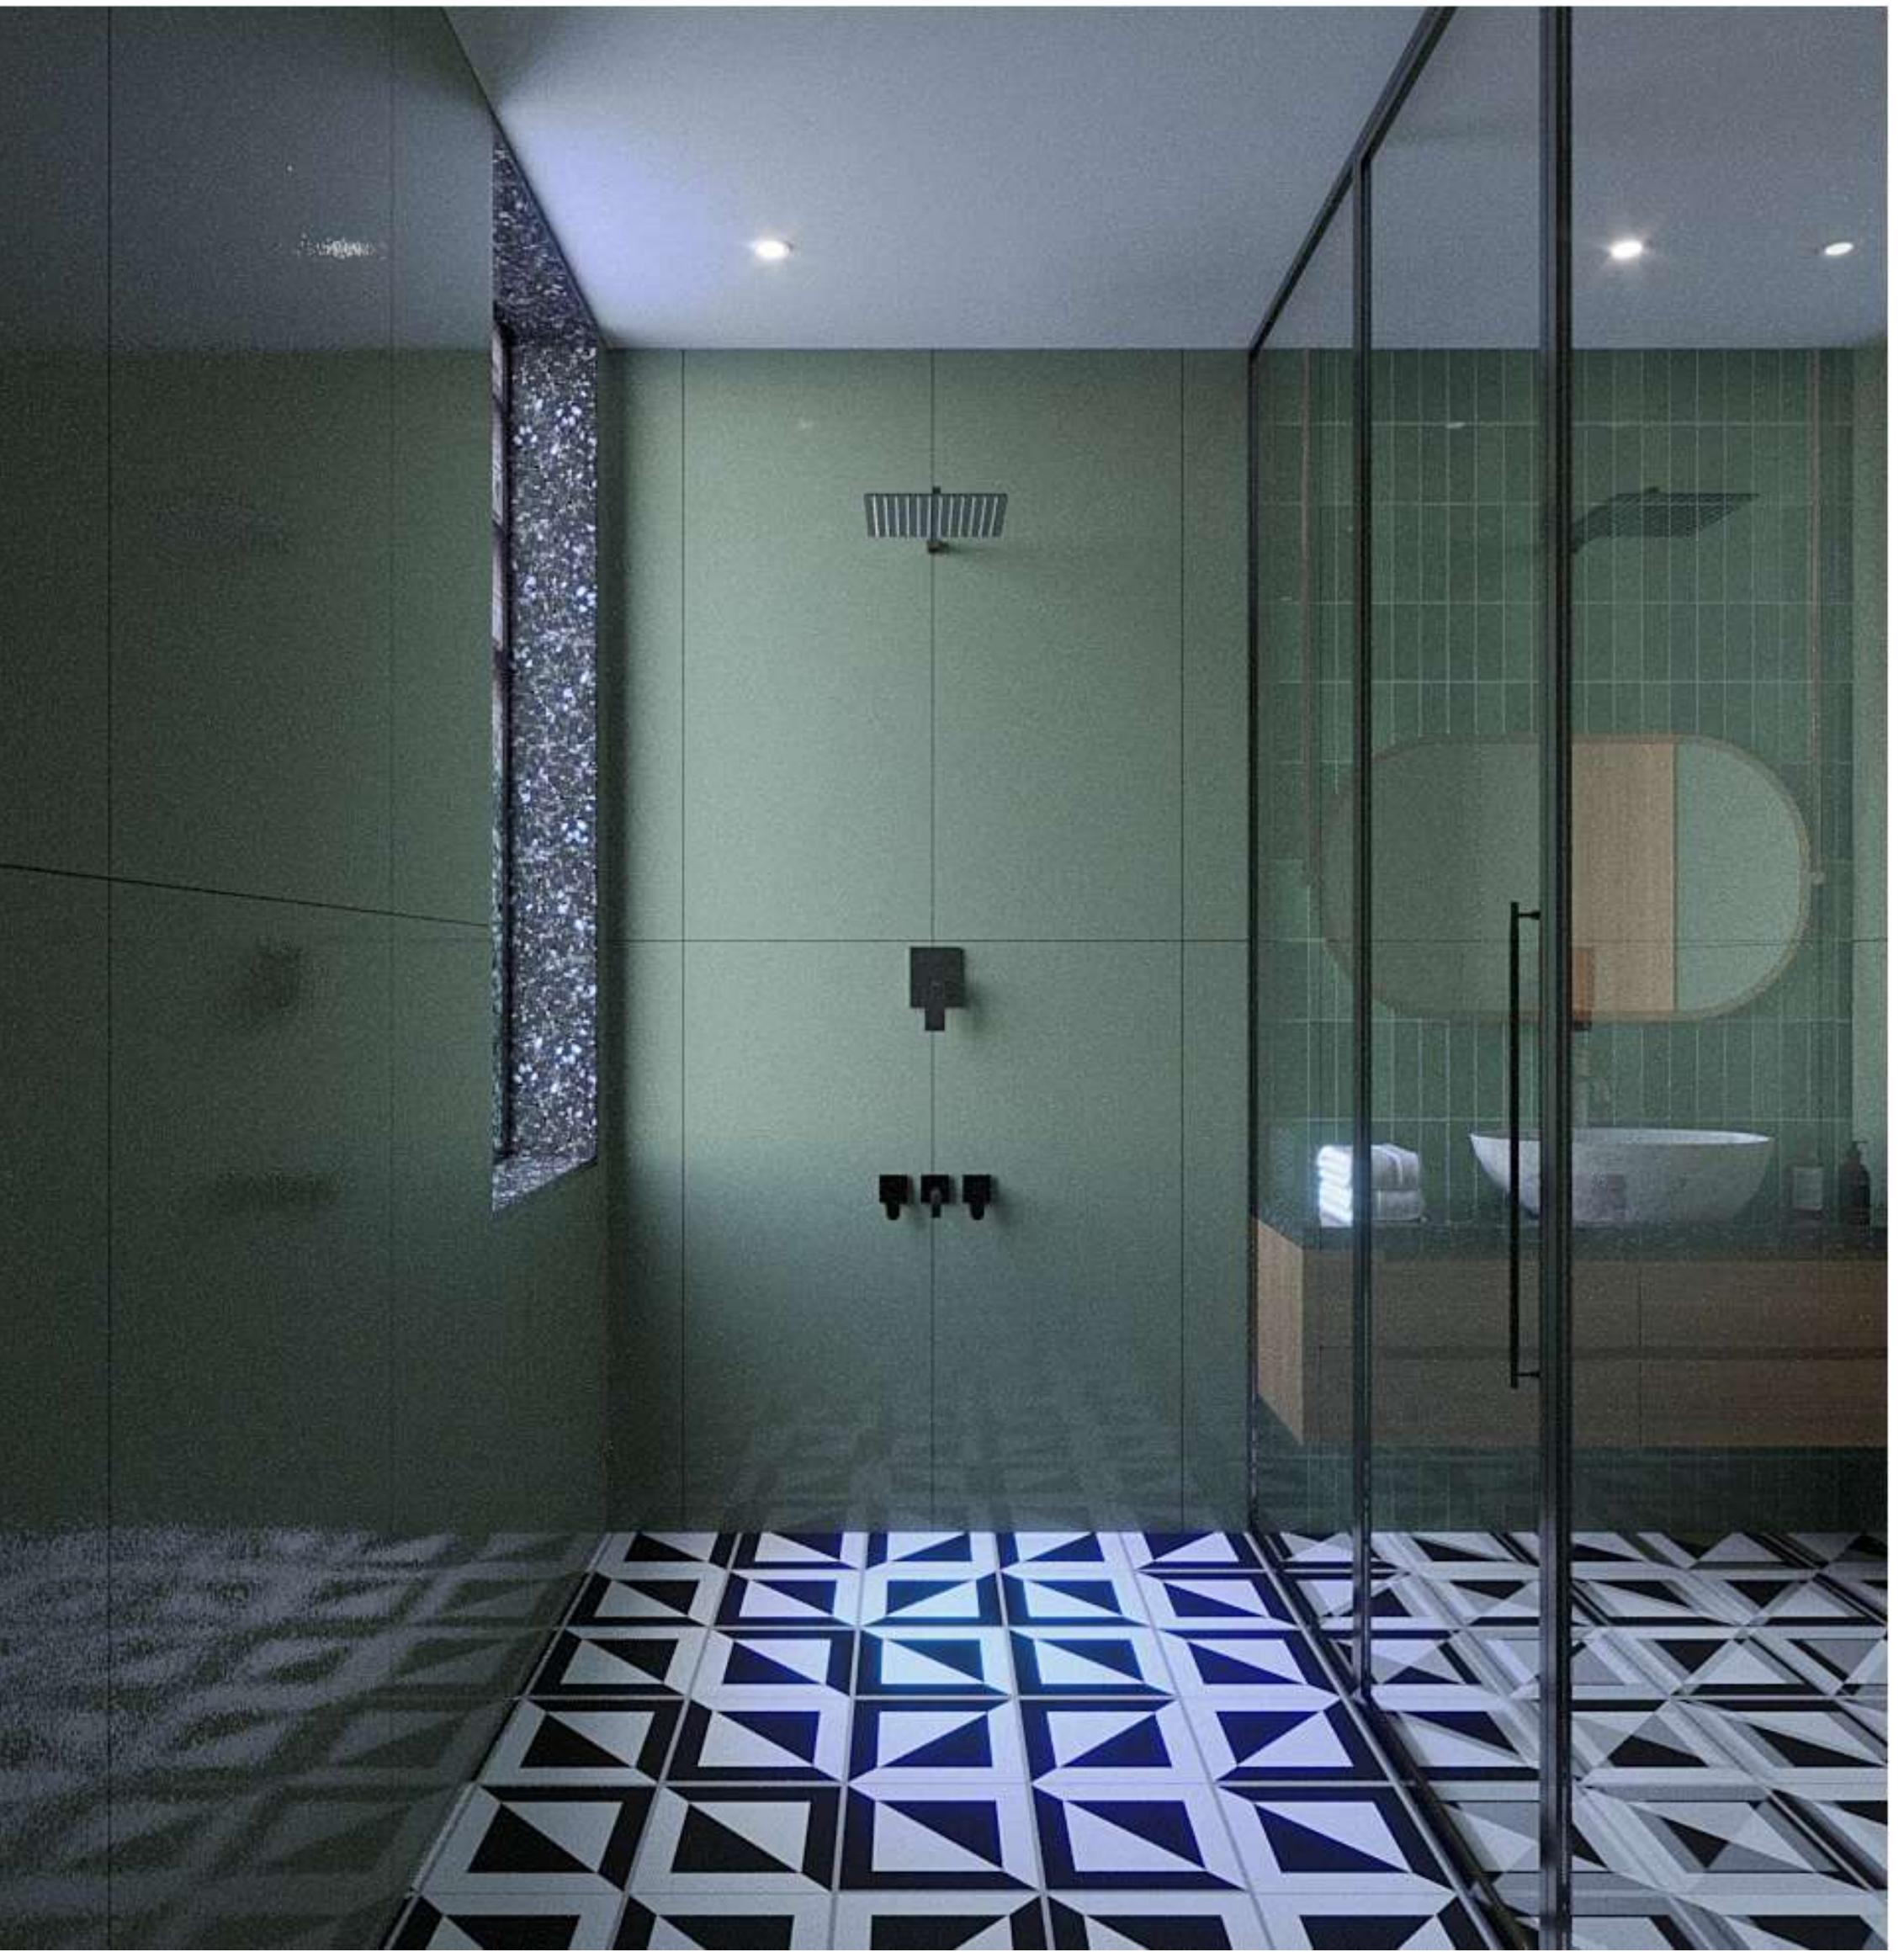

Working closely with designer teams to plan and visualise 3d projects. Assisting with planning decisions. Creating various 3d models using drawings, 3d softwares like 3ds max, and rendering them. Keeping up-to-date with relevant software advances. Collaborated with clients and team members to incorporate feedback, ensuring project deliverables were aligned with expectations.

Texturings and rendering high-quality 3D visualizations for [projects like architecture, interior design, product modeling, etc.], ensuring precision and creativity to meet client requirements.

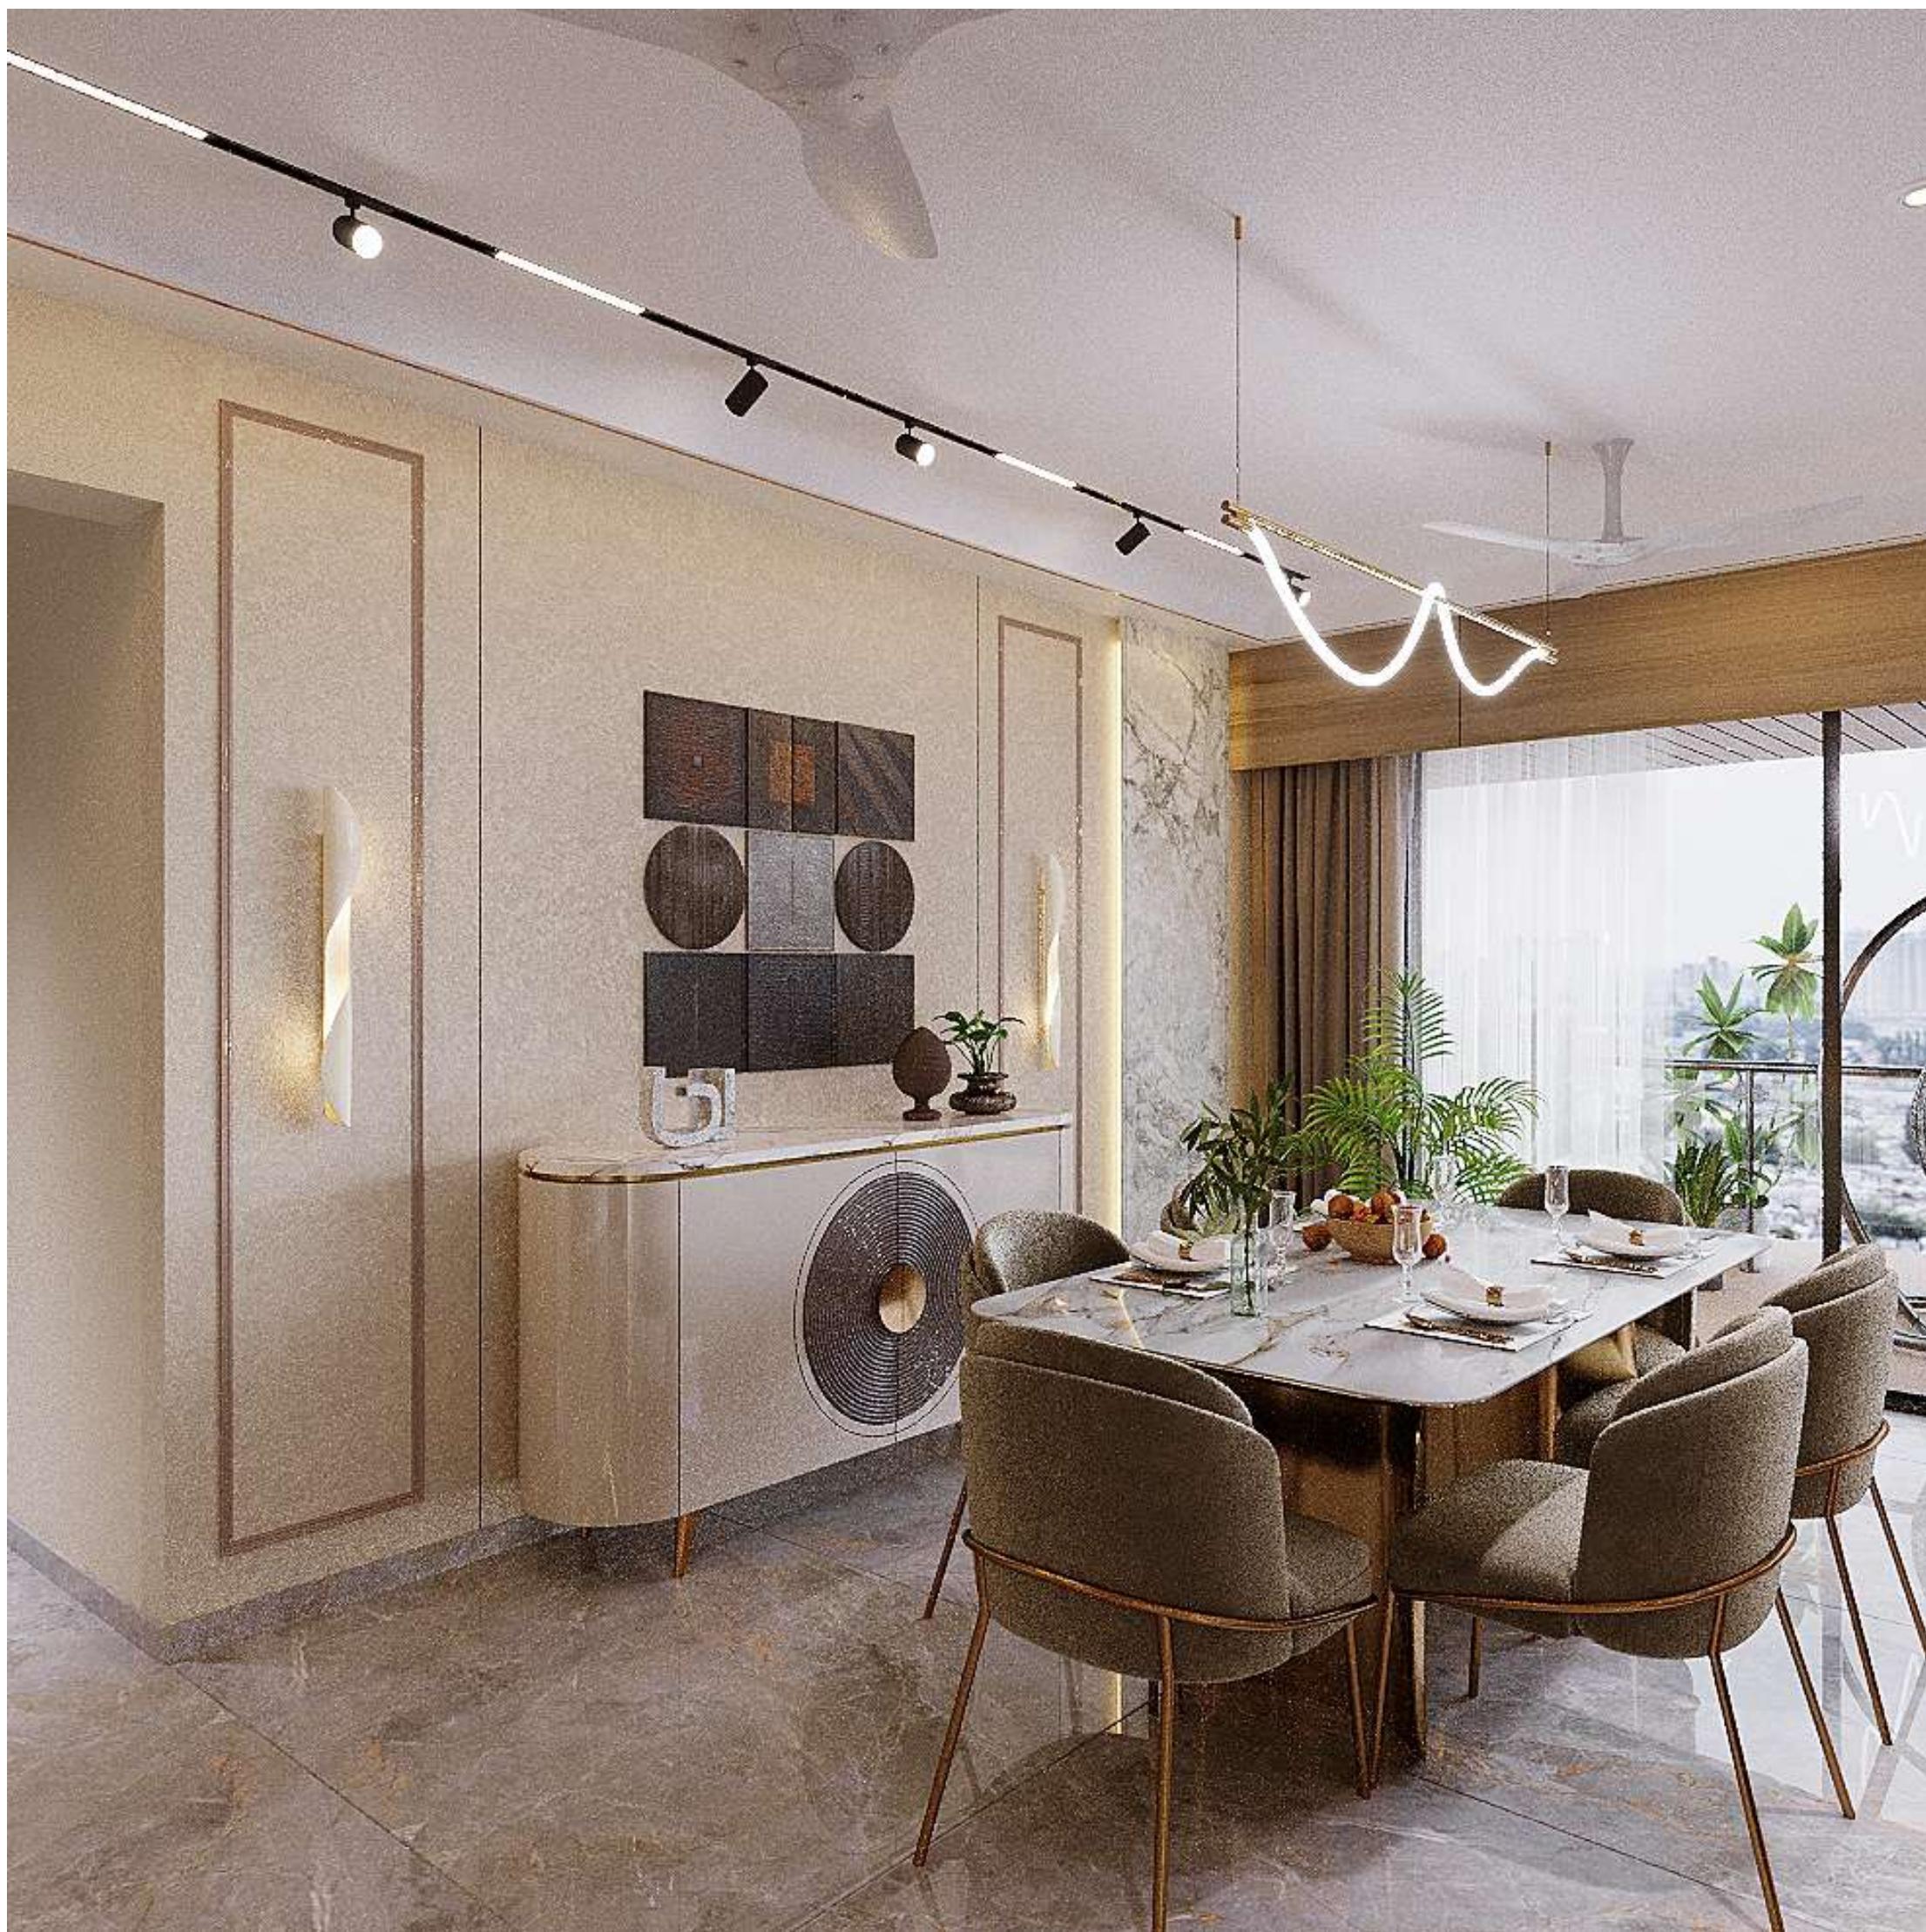

Utilized 3ds Max for creating detailed models and realistic renders.
